

URSEC®

The Anti-reflux Urinals

Female URSEC

Male URSEC

Choose the **URSEC** anti-reflux urinal made by **GOUGET** and get all of these exclusive benefits:

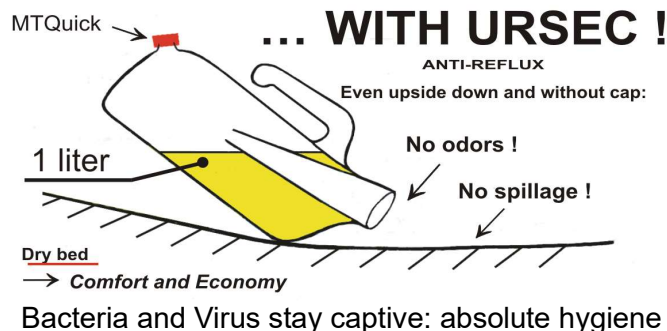

- ▶ **Prevents urine spills:** URSEC's actual use capacity of 1 liter (visible level) will not spill, even if toppled over thanks to the unique secure anti-reflux system (unscrewable). Optimum hygiene.
- ▶ **Simple to use:** no more awkward dirty covers or hard to pull off lids, patients do not need to call to be able to use URSEC: they are autonomous and can even use URSEC with only one hand.
- ▶ **Economical and comfortable:** no more sleepless nights: the URSEC urinal does not leak, the patient and their environment do not need to be cleaned several times a night.
- ▶ **Full emptying:** thanks to its rounded and stylish design and to its **MT Quick®** system (no splashing, 2 caps supplied), URSEC can be emptied totally.
- ▶ **Easy cleaning:** The translucent body of URSEC allows for an instant assesment (tidiness, urine level, content's aspect). URSEC can be taken apart totally and has no hard to reach spots for cleaning.
- ▶ **Discrete to use:** 96% enclosed, URSEC allows very little smell to escape into the environment. It makes nearly no noise when used. It can be easily concealed under the bed sheets.
- ▶ **Glow-in-the-dark Handle:** No need to switch on a light at night to find the urinal, thanks to its high grade phosphorescent pigments (not dangerous), URSEC's handle absorbs light during the day et glows gently during the night for years and without any maintenance.
- ▶ **Feminine model with AirPass® technology :** the only female urinal that can be used without risk of leakage thanks to the AirPass canal.

URSEC for Men + Feminine fitting = URSEC for Women
